EXPERIENCE

SpecialtyCare, Houston, TX — *ATS clinician*

Mar 2020 - Jan 2022 | Sept 2013 - Nov 2015

I was required to respond to emergency situations at a multitude of locations around the Greater Houston area in an expedient and professional manner. Regularly displayed the ability to think and react on the fly with someone's well-being on the line. Accurately and professionally submitted time-sensitive information for managerial, corporate, and client review. Exceptional ability to interact with a variety of different individuals on a regular basis while maintaining a friendly and professional demeanor.

Xenco Labs, Stafford, TX — *Extractions Technician*

October 2019 - January 2020

I was tasked with carefully and meticulously weighing and preparing mostly soil-based specimens with chemicals for further testing and analysis in other departments.

EDUCATION

DigitalCrafts, Houston, TX — *Full-Stack Software Development Certificate*

February 2022 - June 2022

Immersive full-time course covering HTML, CSS, JavaScript, and Python, with an emphasis on the latest frameworks like React/Redux and server-side technology including Node.js, Express, and SQL.

PROJECTS

HeroRPG.py — https://github.com/fdgalvan/rpg_game/blob/main/hero_rpg.py

A text-based RPG game made with Python that runs within the terminal.

reMKT — *Full-Stack group project*

4-person team project, using EJS, JavaScript, CSS, HTML, and Beekeeper. We created a faux marketplace where users can create an account, upload merchandise, and sell it to other users.

SKILLS
